

The Innovative Load Carrying System

extendable by

- Portilo**Box**
- Portilo**Platform**
- Portilo**Ski**

WESTFALIA

Westfalia Portilo - the innovative load carrying system that sets new standards:

Very compact, easy handling and flexible to use.

Use the Portilo system to carry two to three cycles or add additional storage and load carrying possibilities with the Portilo**Box** and Portilo**Platform**. With the Portilo**Ski** you can transport skis and snowboards on the carrier. Everything is ready to use within seconds and without the use of tools.

Additional high quality handy accessories have been designed to compliment the Portilo range, making it the perfect load carrying system that can be tailored to suit your lifestyle requirements all year round.

Enjoy the new load carrying possibilities.

Portilo

The new dimension in cycle racks

WESTFALIA

www.westfalia-portilo.com

Portilo: The dimension of compactness

Compact

- Unique! The new standard for cycle racks: 580 x 220 x 690 mm W/H/D (folded together)
- Extremely compact and easy to store anywhere: in the boot, in the garage, in the basement or wherever there's a small gap.
- Timeless beauty: suitable for every car type

Robust

- 60 kg payload: making it suitable even for heavy electric cycles

Safe

- Extraordinarily safe: high safety and quality standards; development according to the requirements of the automobile manufacturers and TÜV-GS approved
- Comprehensive theft protection: rack and all cycles can be locked individually - with only one key
- Adjustment possible: perfect hold even on worn towballs

Simple to use

- Ready for use immediately: no assembly of individual parts
- Attached within seconds: simply mount and then clamp tight with minimal effort

WESTFALIA

Convenient

- Everything under control: thanks to its compact size, the rack can be easily stored away on the wall mounted bracket
- Easy to load: minimal effort is required by placing the wheels in front of the body (incomparison to roof racks)
- Free access to the boot: the smart swivel-down mechanism makes it possible - even with the bikes mounted on the carrier
- No paintwork damage: the sideward, tool-free mounting avoids damage to the vehicle
- Flexible: suitable for all bicycle types

Accessories

- Portilo**Expansion rail**
- Portilo**Box**
- Portilo**Platform**
- Portilo**Ski**
- Portilo**Loading ramp**
- Portilo**Extension wheel support**
- Portilo**Bag**
- Portilo**Additional brake light**
- Portilo**Wall mounting bracket**

PortiloBox

The versatile and removable
storage box

WESTFALIA

www.westfalia-portilo.com

PortiloBox: More storage space, more free space

Practical

- additional storage space on the Portilo: easily accessible, dirt-tolerant
- Saves energy: fuel- and CO2-efficient by mounting in the slipstream
- A lot of space: 45 kg payload and 200 litres of additional storage space for luggage, plants, shopping, sports equipment, etc.

Light and compact

- Own weight: 15 kg
- Dimensions: 1170x600x425 mm W/H/D

Convenient

- Simple to use: load at body height
- Easy to handle as a trolley: mount and dismount even when loaded and easy to transport on rollers into the house, to shopping, into the hotel, to the lake, and so forth.
- Free access to the boot: folds down even when loaded.
- Open to the top: lid can be removed for larger objects.
- Simple assembly: securely without tools and within seconds

Safe

- High safety and quality standards and TÜV-GS approved
- Protected: theft protection of the box on the rack and a lock on the lid using only one key

WESTFALIA

Portilo**Platform**

The additional load carrier

www.westfalia-portilo.com

Portilo**Platform**: The universel load carrying system

Practical

- Additional platform on the Portilo: easily accessible, dirt-tolerant
- Saves energy: fuel- and CO2-efficient by mounting in the slipstream
- A lot of space: 54 kg payload for crates, building materials, gardening supplies, etc.

Light and compact

- Own weight: 6 kg
- Dimensions: 1290x413x230 mm W/H/D

Convenient

- Simple to use: load at body height
- Simple assembly: fitted without tools and within seconds
- Free access to the boot: folds down even when loaded

Safe

- High safety and quality standards
- Protected: theft protection of the platform on the rack
- Tie-down: mounting points for tension belts or tarpaulins

WESTFALIA

PortiloSki

Ski- and Snowboard Carrier

www.westfalia-portilo.com

Portilo**Ski**: Flexible all year round

Practical

- Additional transport possibility for (winter-)sports equipment on the Portilo: easily accessible
- A lot of space: 51 kg payload for up to 4 pairs of ski's or 4 snowboards

Light and compact

- Own weight: 9 kg
- Dimensions: 1258 x 1383 x 646 mm W/H/D

Convenient

- Simple to use: load at body height
- Simple assembly: fitted within seconds
- Free access to the boot: folds down even when loaded

Safe

- High safety and quality standards
- Protected: theft protection of the ski's and the snowboards on the rack
